6. The Skoplje airport is two kilometers from the city, and was completed during the German occupation. There is a concrete runway two kilometers long which can handle the heaviest aircraft. The installations are modern and there are facilities for night flying. The airport has eight large hangers, a radio station, a repair shop, and at the southern end of the airport there is an underground concrete cistern for gasoline. At the northern part of the airport there is an underground depot for explosives.
7. The 3 Regiment of the auxiliary Air Force is stationed at the airport. The Tetovo, Kumanovo and Kosov Polje airports are under the jurisdiction of the Skoplje airport.
